

IR Extender

For use with HDS100 and HDS200 Receiver Models

Features

- Hide HD Flow Receiver in a TV stand or mount it behind the TV while maintaining IR functionality for remote components
- Delivers a clean, clutter-free installation
- Discreet appearance ideal for blending into any environment
- Compatible with all models of HDS100/200 products
- Cord Length: 3ft (0.91m) lead
- Connection Type: 3.5mm plug
- Range: up to 22ft (6.71m) range from remote control to IR Extender

Extend a remote's reach with the IR Extender accessory for HD Flow™ and HD Flow™ Pro Models. This is the perfect tool for applications where the receiver is out of sight such as mounted behind an HDTV or installed above a ceiling mounted projector. Simply plug in the IR Extender to the receiver, locate the IR Eye in line-of-sight and control the components – no power outlet required.

HDS-IRE: IR Extender for use with HDS100 and HDS200 Receiver Models
